Alberta's International Exports

January to December 2001

Highlights

Overview: Alberta's international exports grew to \$56.9 billion in 2001, up 2.8% from 2000. Last year's lower growth was largely the result of lower crude oil prices and the global high tech slump, which resulted in lower telecom exports. Commodities with large increases include natural gas, beef, propane, polyethylene, oil & gas field equipment, live cattle and electricity. Exports to the US increased by 3.8% to \$50.6 billion, but exports to the rest of the world declined by 4.6%. The recent weakening of commodity prices, e.g. of oil and gas, and declining world wide demand for telecom equipment caused Alberta's exports to fall by 32.6% in the fourth quarter of 2001, compared to the fourth quarter of 2000.

Major Commodities: Natural gas sales rose 26% in 2001, as prices increased 18% (but fell in the second half) and volumes 7%. Crude oil exports fell 15%, as both volumes and prices declined. Exports of propane rose 44% (higher prices) and polyethylene exports 33% (higher volumes). Exports of beef, live cattle, fiber optic cable and oil & gas field equipment were sharply higher, mostly as a result of strong volume growth. Surplus generation capacity contributed to a large increase in Alberta electricity exports in the first half. Commodities with large declines include telecom equipment, crude oil, refined petroleum, wood pulp and liquefied petroleum gases (other than propane). In the fourth quarter, exports of wheat, drilling machinery, beef and ethylene polymers grew strongly, while exports of crude oil, natural gas, wood pulp, telecom equipment and refined petroleum fell.

Exports by Industry: Exports by the mining & energy sector rose 7% in 2001, because of higher prices and volumes of natural gas and propane, but declined 41% in the fourth quarter. Primary agricultural exports grew by 11%, led by strong growth for live cattle, hogs and canola. The manufacturing sector's exports declined by 6%, due to a 22% drop in the fourth quarter. Manufacturing sub-sectors with strong growth include: machinery; transportation equipment; food, feed & beverages; electrical equipment & appliances. The electronics industry fell 42% and refined petroleum and pulp & paper industries were lower.

United States: Total exports to the US rose 3.8% in 2001, but fell by 36% during the fourth quarter. Natural gas is the primary source of the 2001 increase. The values of propane, polyethylene, electricity, beef and live cattle exports also rose strongly. Exports of crude oil, liquefied petroleum gases (other than propane), telephone equipment, refined petroleum, urea and wood pulp were lower.

Asia: Exports to Asia were down 5% from the previous year. Strong growth in imports of wheat, canola, malt, pork and ethylene polymers was more than offset by declines in wood pulp, polyethylene and sulphur. Imports by China, Thailand, the Philippines and Vietnam increased strongly, but large declines were registered by South Korea, Hong Kong, Indonesia and Malaysia. Japanese imports declined by 4%.

Europe: Exports to Western Europe were 10% lower than in the previous year, because of a large decline in the second half. Wood pulp exports fell sharply, but exports of turbo-propellers and horse meat increased. Imports by Alberta's top European markets, the United Kingdom, Italy and Belgium, were lower, but Norwegian and Swedish imports rose sharply. Led by very strong growth in Russia, exports to the Eastern European countries rose 18% as exports of machinery and equipment, mainly for the oil and gas fields, increased strongly.

Latin America: Alberta's exports to South America fell 17%, because of large declines in sales of used aircraft and telecom equipment. Exports to Colombia rose 47%, but exports to Argentina, Brazil and Chile fell sharply. Central American imports increased 21%, because of strong growth in beef imports. Mexico's imports rose 35%, also because of higher beef imports.

Other Regions: Exports to the Middle East were marginally lower, as lower wheat sales more than offset an increase in oil and gas field exports. African imports from Alberta rose less than 1%. Imports by Nigeria and Tunisia were sharply higher. Exports to the Oceania region were 36% lower in 2001. Exports to Australia fell 47%, as telecom sales plummeted.

ALBERTA'S COMMODITY EXPORTS SUMMARY

Wyoming	47,530	48,111	1.2%	119,001	158,041	32.8%
Noted 20 States Above	3,319,806	2,521,172	-24.1%	12,477,612	11,664,838	-6.5%
All other US States	864,286	746,232	-13.7%	2,891,691	3,289,567	13.8%
Total Exports to the USA (excl. Oil & Gas)	4,184,092	3,267,404	-21.9%	15,369,303	14,954,405	-2.7%

* Exports to individual states can be seriously over- or under-stated, because energy exports, such as crude oil and natural gas, cannot be allocated to the state of final destination. For example, exports to Washington are overstated and to California understated.

** Excluded commodities include: Crude Oil, Natural Gas, Propane, Butane and other Natural Gas Liquids
